

Canada Greener Homes Grant

The Federal Government has announced a new grant program for eligible homeowners to receive up to \$5,000 to support energy-efficient upgrades, such as windows, heating and cooling systems, and solar panels. The grant also provides \$600 towards the cost of an EnerGuide Home Energy Evaluation. More details are forthcoming, but work started after December 1, 2020, may be eligible. Visit [Canada Greener Homes Grant](#) for more information.

It is important that interested homeowners read all eligibility criteria and grant requirements to ensure they qualify for reimbursement.

Through the Canada Greener Initiative, a \$2.6 billion program delivered over 7 years and announced in the 2020 Federal Economic Statement, Natural Resources Canada will provide 700,000 grants of up to \$5,000 to homeowners for home energy improvements (retroactive to December 1, 2020), up to one million free EnerGuide energy assessments, and support to recruit and train EnerGuide energy auditors.

Warning about scams!!

NRCAN has not approved any third parties to reach out to homeowners in an unsolicited fashion to register or participate in the Canada Greener Homes Grant. The Government of Canada, NRCAN and its family of brands (ENERGY STAR, EnerGuide) will never solicit over the telephone, by email or go door-to-door asking to enter Canadians' homes to inspect, sell, or rent heating and cooling products. EnerGuide home energy evaluations are performed by licensed service organizations only at the request of homeowners.
